Years Of Experience In Nurse Recruitment

Contact: Joe Rizvi. Nurses4America, Basepoint Business and Innovation Centre,
110 Butterfield, Great Marlings, Luton, Bedfordshire, LU2 8DL, UK

The nursing shortage in the USA is becoming worse every year, with 10,000's of nurses needed, demand has completely outstripped supply. A solution to deliver well trained, professional and experienced nurses is required – and Nurses 4 America are here to help.

We offer a solution

For many years Nurses 4 America has been helping healthcare organizations alleviate their nursing shortages from a huge pool of UK based and English speaking registered nurses.

For health care organizations, hospital systems, nursing homes and home health care companies, Nurses 4 America locates, qualifies, introduces and places nurses in full-time, one-to-three-year permanent positions throughout the USA. We assist our nurses with relocation, financing and an ongoing support network to help them acclimate to the USA and to your organization.

Tell us how many nurses, what areas you want them to be specialized in, and we will send you over high quality resumes for your approval.

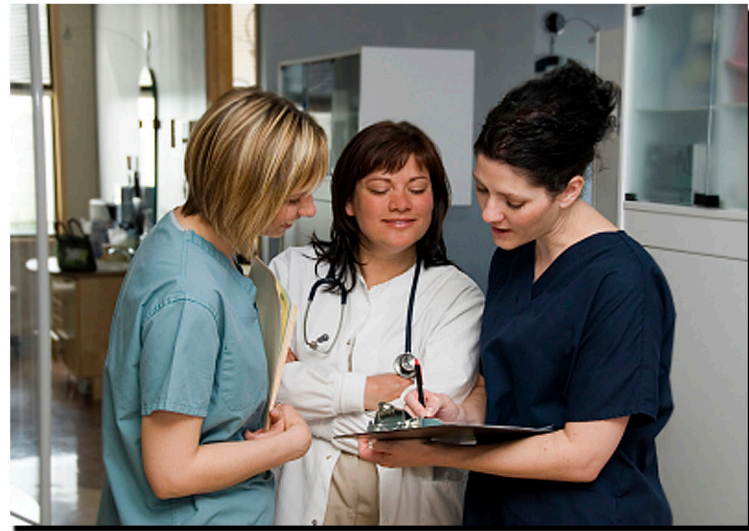

Our healthcare professionals work closely with recruiters who keep them apprised of opportunities in the industry that will provide them with the career move they desire. We understand that our success rests on the ability to provide appropriate candidates to our clients and to making placements that last.

We Meet Your Needs

Nurses 4 America are one of the industry leading nurse recruiters and for good reason – there isn't much we don't know about nursing recruitment. Nurses 4 America get 100's of enquiries a month from experienced and qualified nurses who wish to live and work in the USA. We will go through the resumes, and send you any of the nurses that have the skill set and experience that your hospital requires.

Because of the amount of enquiries that we receive, we can supply you with a stream of NCLEX certified nurses, who will meet your needs. Also because the UK is so diverse in culture, UK nurses will fit in quickly as part of the team that your hospital needs to deliver the results that you expect to give to your patients.

Alleviate Your Nursing Shortage

Advantages we offer

- Ensure nurses that have been carefully selected and vetted.
- Full NCLEX and IELTS training is provided so that nurses meet all licensing requirements.
- We have our own dedicated NCLEX training servers.
- Immigration work undertaken if required.
- Money-saving advantages by recruiting nurses to permanent positions.
- Acclimatization and relocation advice to ensure a smooth transition for your nurses.
- We will only present candidates who are extensively screened and interviewed.
- We offer more than just resumes. We offer an understanding of where our candidates are coming from and what their long term goals are.
- We are dedicated to completing the hiring process by arranging initial telephone interviews, facilitating onsite interviews, and working through salary negotiations.
- We assist hired candidates make successful transitions.
- We maintain contact with both client and nursing professional after hire to ensure that both parties are satisfied.
- A database of high quality general and specialist qualified nurses.

A Pipeline of NCLEX Qualified Nurses

No matter how skilled the nurse is, passing the NCLEX exam is a requirement for the nurse to be allowed to practice in the United States. Luckily, Nurses 4 America have a world class NCLEX training program.

Nurses 4 America aren't like other nurse recruitment agencies – which must rely on 3rd party providers to supply them with NCLEX training software, and because of this are at the mercy of another company. Nurses 4 America have our own dedicated servers which allow the nurse to login whenever and where ever they wish – and we can issue the nurse a username and password in just a few minutes.

Better still, we have the ability to monitor the nurses to see how much they are studying; they can save their place during study with a username and password, and study at their own pace. We can also monitor the nurse's progress to help improve the quality of her revision. 100's of nurses are already signed up to our training program, ensuring a constant pipeline of experienced, skilled and NCLEX qualified nurses to your hospital. Contact us and we will be happy to set you up a demo account to show why our program allows nurses trained by us to enjoy a 92% pass rate – and why we are a better choice than other companies.

A good, reliable training program is extremely important for a nurse recruiting business – simply because without a reliable method of training the nurse is far less likely to pass the NCLEX exam. This slows down her immigration, thus risking interrupting the flow of nurses to the clients hospital.

Nurses 4 America are very proud of our relationship with Visas 4 America. Visas 4 America allows nurses and other clients to seek legal advice easily for immigration matters when they may have problems obtaining a green card.

A few examples of such issues could be:
They aren't married to their spouse or partner
Have children over 21 years of age
The nurse or one of the family have a criminal record.

Because of the complexities of US immigration law, Visas 4 America are always there to lend advice to ensure that the immigration of the nurse is as quick and easy as possible – this ensures a smoother transition for the nurse and for you the hospital as possible.

Visas 4 America has years of experience in the field of US Immigration, with a high success rate for its clients plans to move to the USA for more details go to www.visas4america.com

Why Choose UK Nurses?

Nurses from the UK are widely regarded as the best source of nurses for USA hospitals – due to a number of reasons.

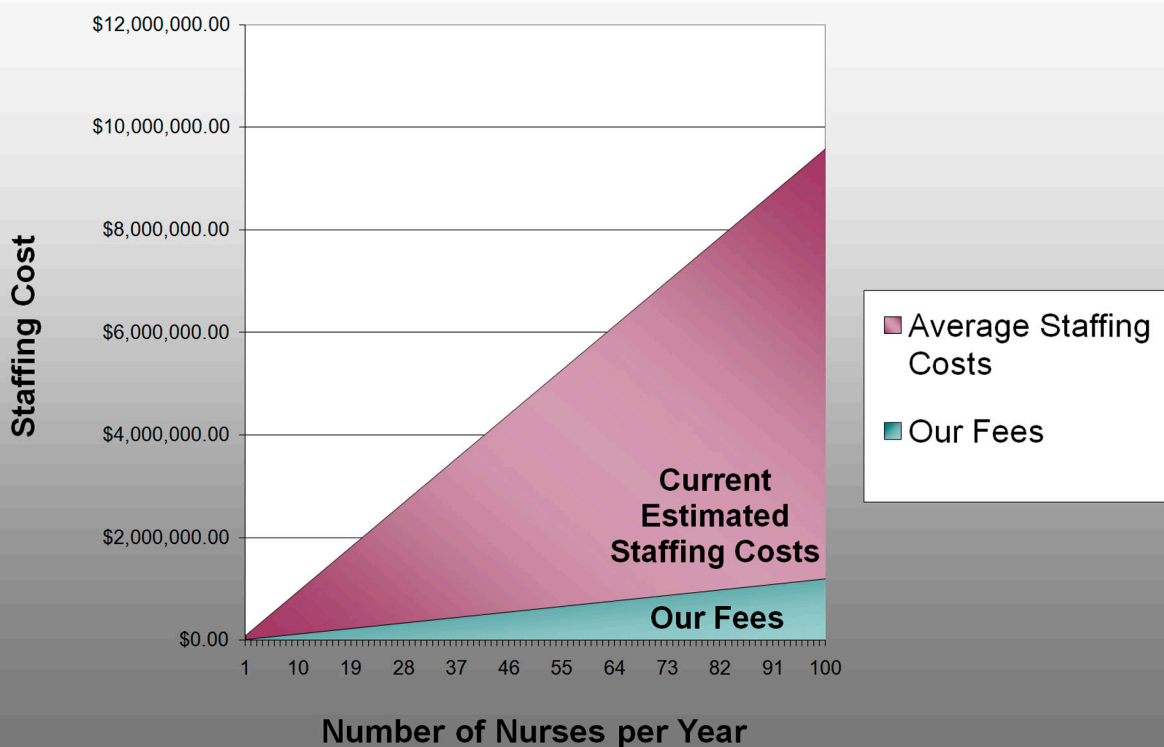

UK nurses have the benefit of having no language problems at all, Nurses who originally registered in the UK don't need to worry about English exams but also that they have no language barriers in work. Because of the similar culture between the UK and America, this ensures the quickest and smoothest transition possible for the nurse to her new environment.

Nurses in the UK also have the major advantage of being used to the latest medical techniques and equipment – with better training in general than other countries – meaning that you will be getting an employee who will be better skilled and typically more experienced.

UK Nurses are also known to work better in teams, able to fit in to whatever position that is assigned to them and are used to a massively diverse culture – which means they are better experienced to handle a variety of different patients and situations in a polite and professional manner.

How much you can save on 100 nurses per year!

Recruiting international nurses saves you money, and is the better solution to fill vacancies in your nursing staff!
